

Note: Please contact Paul Mitchell if you are interested. paulmitchellncsu@hotmail.com

QCCC will be holding another Car Care Day on October 21. We will meet at noon at the Shoals Grill, 1080 Brawley School Road, Mooresville. After lunch, we are again invited to the beautiful garage of Richard Gwilt, just across the road from the restaurant. <http://shoalsgrill.com/>

This clinic will be held by Richard Kashinsky, QCCC member and Adams East Coast Distributor of the Adams line of car care products. At this clinic, Richard will work with machine polishing/buffing equipment, demonstrating proper and safe operation of them. He will have several machines for each participant to actually use, hands on experience. If you own a polisher, feel free to bring it if you want some lessons on how to operate it. Richard will sell machines at the club discount, but they will have to be ordered for shipment after the meeting.

Many of us are leery of using these machines on our Corvettes, so this is an excellent opportunity to learn how to safely and effectively use them.

If you want to attend, contact Paul Mitchell at paulmitchellncsu@hotmail.com. There will be signup sheets at the Oct. meeting.

We will limit participation to 25 cars.
